

## PWM Control Electronics for Solenoid Control Valves

- Programmable digital electronics
- Converts an analog input signal to a PWM output signal
- Adjustable PWM frequency
- Digital communication possible (bùS)
- Optional integrated time control and digital/analog input signals

Product variants described in the data sheet may differ from the product presentation and description.

### Type description

The digital control electronics, Type 8605, serves to operate proportional solenoid control valves in the power range from 40 - 2000 mA. The electronics converts an external standard signal into a pulse-width modulated (PWM) signal with which the opening of the proportional valve and hence a fluidic output parameter (e.g. flow rate) can be infinitely varied. An internal current control with the duty factor of the PWM signal as valve control signal ensures that every value of the input signal, irrespective of the thermal condition of the coil, is unambiguously assigned a given value of the effective coil current. A display and operating buttons allow the electronics to be easily adjusted to a particular proportional valve and to the concrete conditions of an application. In order to integrate the control electronics - and thus the solenoid control valve - into a higher-level PLC system, a CAN based version (so called bùS) is available. The parameterization and configuration of the solenoid control valve can be done quickly and easily by the Bürkert Communicator software. Furthermore, the bùS control electronics allows to integrate shut-off valves into bùS/CAN systems. By using the integrated time control function, a shut-off valve can be opened or closed for a certain time period. This serves, for example, batch control solutions in filling. As an option, Type 8605 can be equipped with an additional I/O board. This makes the connection of external sensors or switches possible. The behaviour of the valve on these input signals can be configured (e.g. 2-point control).

## 1. General technical data

### 1.1. Type 8605 control for proportional valves

Product properties	Analogue version	büS version
Dimensions	Detailed information can be found in chapter <a href="#">Cross reference</a> .	
<b>Material</b>		
Cable plug	Polyamide / PC	Polyamide / PC
DIN rail	Polyamide / PBT	
Ramp function	Time adjustable from 0 to 10 sec.	Time adjustable from 0 to 10 sec.
Version	<ul style="list-style-type: none"> <li>Cable plug for direct mounting (terminal strip with PG bushing or M12 plug, 4-pin)</li> <li>DIN rail version (DIN EN 50022)</li> </ul>	
<b>Electrical data</b>		
Operating voltage	12...24 V DC	12...24 V DC
Power consumption	ca. 1 W (without valve)	ca. 1 W (without valve)
Voltage tolerance	± 10 %	± 10 %
Residual ripple	< 5 %	< 5 %
Output current (valve)	PWM: Max. 2 A	PWM: Max. 2 A
Input signal	Standard signals: 0...20 mA, 4...20 mA or 0...5 V, 0...10 V (configurable)	Digital control via CANopen based system bus (büS)
Input impedance	< 200 Ω (with current input) > 20 kΩ (with voltage input)	120 Ω (required terminating resistor in the büS network, not included in scope of delivery)
Output signal for valve control	PWM signal: Frequency adjustable from 80 Hz to 6 kHz	PWM signal: Frequency adjustable from 80 Hz to 6 kHz
<b>Approvals and certificates</b>		
<b>Degree of protection</b>		
Cable plug	IP65	IP65
DIN rail	IP40	
<b>Environment and installation</b>		
Ambient temperature	-10...60 °C	-10...60 °C

### 1.2. Type 8605 (büS) control for shut-off/solenoid valves

Product properties	büS version
Dimensions	Detailed information can be found in chapter <a href="#">“2.2. Type 8605 (büS) control for shut-off/solenoid valves” on page 6</a> .
<b>Material</b>	
Cable plug	Polyamide / PC
Version	<ul style="list-style-type: none"> <li>Cable plug for direct mounting (M12-plug, 5-pole)</li> <li>Cable plug for direct mounting (M12-plug, 5-pole) and sensor input (M12 socket, 5-pin)</li> </ul>
Time switch	Freely parameterizable via communicator
<b>Electrical data</b>	
Operating voltage	12...24 V DC
Power consumption	ca. 1 W (without valve)
Voltage tolerance	± 10 %
Residual ripple	< 5 %
Output current (valve)	Max. 1 A 100 % ED
Input signal	Digital control via CANopen based system bus (büS)
Input impedance	120 Ω (required terminating resistor in the büS network, not included in scope of delivery)
Output signal for valve control	Nominal voltage or 0 V

**Approvals and certificates**

**Degree of protection**

Cable plug IP65

**Environment and installation**

Ambient temperature -10...60 °C

**2. Dimensions**

**2.1. Type 8605 control for proportional valves**

**Cable plug with control unit (analogue version only)**

**Note:**

Dimensions in mm

Cable plug without control unit (analogue and bus versions, for bus version only M12 plug, 5-pin)

**Note:**

Dimensions in mm

**DIN rail version (analogue variant only)**

**Note:**

Dimensions in mm

## 2.2. Type 8605 (büS) control for shut-off/solenoid valves

Cable plug M12 plug, 5-pin

Note:

Dimensions in mm

Cable plug M12 male connector, 5-pin and sensor input M12 female connector, 5-pin

**Note:**

Dimensions in mm

### 3. Device/Process connections

#### 3.1. Pin assignment

Type 8605 control for proportional valves

##### Cable plug PG feed-through

No.	Element
1	Standard signal +
2	Standard signal GND
3	GND
4	+12...24V DC

##### Cable plug M12 plug, 4-pin

No.	Element
1	Standard signal GND
2	GND
3	+12...24 V DC
4	Standard signal +

**DIN rail**

No.	Element
1	Valve
2	Valve
3	Standard signal +
4	Standard signal GND
5	GND
6	+ 12...24 V DC

**Cable plug M12 plug 5-pin (bùS variant)**

No.	Element
1	Shield
2	12...24 V
3	GND
4	CAN_H
5	CAN_L

**Type 8605 (bùS) control for shut-off/solenoid valves**

**Cable plug M12 plug 5-pin (bùS variant)**

No.	Element
1	Shield
2	12...24 V
3	GND
4	CAN_H
5	CAN_L

## Cable plug M12 plug, 5-pin and sensor input M12 socket, 5-pin (bùS variant)

No.	Element
1	Shield
2	12...24 V
3	GND
4	CAN_H
5	CAN_L

No.	Element
1	DI2 (Digital input, frequency input)
2	24 V DC
3	AI1/DI1 (Analogue input, digital input)
4	GND

## 4. Product operation

### 4.1. Functional overview

#### Type 8605 control for proportional valves

- Microcontroller controlled electronics
- Compensation of solenoid coil heating by internal current control
- Configurable ramp function
- Adjustable zero point switch-off
- Continuously adjustable PWM frequency
- Easy adaptation of the minimum and maximum current (opening start or full opening) to the actual pressure conditions
- Display and button (analogue version)
- Switchable input standard signal (analogue version)
- Digital communication based on CANopen (bùS variant)

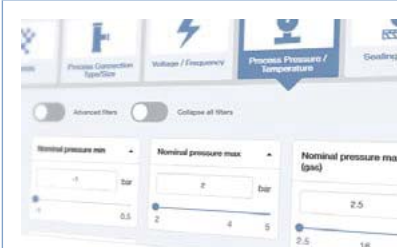

**Type 8605 (büS) control for shut-off/solenoid valves**

- Microcontroller controlled electronics
- Digital communication on CANopen basis
- Integrated time control function
- Switching counter
- Energy-saving operation through power reduction
- Optional digital/analogue inputs, if required with 2-point control, for version with sensor input

**5. Ordering information****5.1. Bürkert eShop – Easy ordering and quick delivery****Bürkert eShop – Easy ordering and fast delivery**

You want to find your desired Bürkert product or spare part quickly and order directly? Our online shop is available for you 24/7. Sign up and enjoy all the benefits.

[Order online now](#)

**5.2. Bürkert product filter****Bürkert product filter – Get quickly to the right product**

You want to select products comfortably based on your technical requirements? Use the Bürkert product filter and find suitable articles for your application quickly and easily.

### 5.3. Ordering chart

#### Type 8605 control for proportional valves

##### Note:

- For two possible current ranges, the smaller one should be preferred.
- When using the control electronics in combination with valves from other manufacturers, make sure that these valves do not fall below a minimum load of 7Ω. Activation of valves with a lower minimum load will damage the Type 8605 electronic control unit.

Version	Max. coil current range [mA]	Article no.	2861, 2871 24 V DC	2861, 2871 12 V DC	2863, 2873 24 V DC	2863, 2873 12 V DC	2865, 2875 24 V DC	2865, 2875 12 V DC	2836 24 V DC	6024 24 V DC	6024 12 V DC	6223 24 V DC	6223 12 V DC

1.) Available from April 2020

#### Type 8605 (büS) control for shut-off/solenoid valves

Version	Article no.
Cable plug with M12 connection	302988
Cable plug with M12 connection and sensor input (M12)	302990

### 5.4. Ordering chart accessories

#### Analogue version

Accessory	Article no.
Control unit for Type 8605 Cable plug	582878
Right-angle plug M12 4-pol.	784301
M12 connecting cable 4-pol. 5 m length	918038
Cover set (for control electronics without control unit)	670549

## bùS version

Selection of accessories	Article no.
bùS-stick set 1 (incl. connection cable (M12 and micro-USB), bùS-stick with integrated terminating resistor, power supply and other accessories)	772426 
bùS-stick set 2 (connection cable (M12 and micro-USB), bùS-stick with integrated terminating resistor)	772551 
bùS-Y distributor, M12	772420 
bùS-Y distributor, M12 with voltage interruption	772421 
Terminating resistor, plug, M12	772424 
Terminating resistor, socket, M12	772425 
bùS-cable extension, 0,2 m (connecting M12 plug on M12 socket)	772402 
bùS-cable extension, 0,5 m (connecting M12 plug on M12 socket)	772403
