Manifold system with integrated electrical connection including LED, manual override and built-in circuit protection. Double solenoid valves and 5/3-way valves require 2 stations on the manifold.
The above order code covers only the manifold. The valves and the multi-pin plug with cable must be ordered separately.
The valve terminal is delivered pre-assembled and function-tested. If not specified with the order, valve configuration is as follows: Valves are mounted according to their order number, starting with high numbers on the side of the multi-pin, ending with low numbers on the opposite side, followed by blind plates (if ordered).

## Electrical options

## Multi-pin

The 19-pin multi plug (see page 7-04) has to be ordered separately.

Electrically operated spool valve. The manual override is detent and is operated by screw driver.

## 5/2-way-valves

MF-04-510-HN-412
5/2-way, single solenoid, air spring return
MF-24-520-HN-412
5/2-way, double solenoid

## 5/3-way-valves

MF-24-530-HN-412
5/3-way, center position closed
MF-24-533-HN-412
5/3-way, center position exhausted
