

## DATA SHEET

### Type 8801 On/Off CLASSIC

## CLASSIC On/Off valve system - overview

Product variants described in the data sheet may differ from the product presentation and description.

### Combined with

	<b>Type 8801-YA</b> Type 2000 + 8690/8691/ 8697
	<b>Type 8801-GA</b> Type 2101 + 8690/8691/ 8697
	<b>Type 8801-DB</b> Type 2031 + 8690/8691/ 8697
	<b>Type 8801-TA</b> Type 2032 + 8690/8691/ 8697
	<b>Type 8801-DG</b> Type 2033 + 8690/8691/ 8697

### Type description

The design of the System Type 8801 On/Off CLASSIC enables the easy integration of automation modules whether they are electrical/optical position feedback, pneumatic control units, an optional integrated fieldbus interface or even an explosion proof control head.

The fully integrated system with valve and automation system has a compact and smooth design and IP65/67/NEMA4X protection class.

1.2. Combination possibilities for decentralized automated On/Off CLASSIC valve systems Type 8801-GA .....	4
1.3. Combination possibilities for decentralized automated On/Off CLASSIC valve systems Type 8801-DB .....	5
1.4. Combination possibilities for decentralized automated On/Off CLASSIC valve systems Type 8801-TA .....	6
1.5. Combination possibilities for decentralized automated On/Off CLASSIC valve systems Type 8801-DG .....	7

## 1. Product installation

### 1.1. Combination possibilities for decentralized automated On/Off CLASSIC valve systems Type 8801-YA

The valve system **On/Off CLASSIC Type 8801-YA** consists of an **angle-seat valve Type 2000** and a **control unit**.

The control program consists of:

- A pneumatic control unit Type 8690
- A feedback control unit Type 8697
- A control head Type 8691

**Note:**

- You order two components and receive a complete assembled and certified valve.
- Click on the links below and you will come to our website for the respective product where you can download the data sheet.
- For the configuration of further valve systems please use the “Product Enquiry Form” in the data sheet **Type 2000** ▶.

## 1.2. Combination possibilities for decentralized automated On/Off CLASSIC valve systems Type 8801-GA

The valve system **On/Off CLASSIC Type 8801-GA** consists of a **globe valve Type 2012** and a **control unit**.

The control program consists of:

- A pneumatic control unit Type 8690
- A feedback control unit Type 8697
- A control head Type 8691

### Note:

- You order two components and receive a complete assembled and certified valve.
- Click on the links below and you will come to our website for the respective product where you can download the data sheet.
- For the configuration of further valve systems please use the "Product Enquiry Form" in the data sheet **Type 2012** ▶.

### 1.3. Combination possibilities for decentralized automated On/Off CLASSIC valve systems Type 8801-DB

The valve system **On/Off CLASSIC Type 8801-DB** consists of a **diaphragm valve Type 2031** and a **control unit**.

The control program consists of:

- A pneumatic control unit Type 8690
- A feedback control unit Type 8697
- A control head Type 8691

**Note:**

- You order two components and receive a complete assembled and certified valve.
- Click on the links below and you will come to our website for the respective product where you can download the data sheet.
- For the configuration of further valve systems please use the "Product Enquiry Form" in the data sheet **Type 2031**.

#### 1.4. Combination possibilities for decentralized automated On/Off CLASSIC valve systems Type 8801-TA

The valve system **On/Off CLASSIC Type 8801-TA** consists of a **T-Valve Type 2032** and a **control unit**.

The control program consists of:

- A pneumatic control unit Type 8690
- A feedback control unit Type 8697
- A control head Type 8691

**Note:**

- You order two components and receive a complete assembled and certified valve.
- Click on the links below and you will come to our website for the respective product where you can download the data sheet.
- For the configuration of further valve systems please use the "Product Enquiry Form" in the data sheet **Type 2032**.

### 1.5. Combination possibilities for decentralized automated On/Off CLASSIC valve systems Type 8801-DG

The valve system **On/Off CLASSIC Type 8801-DG** consists of a **tank bottom valve Type 2033** and a **control unit**.

The control program consists of:

- A pneumatic control unit Type 8690
- A feedback control unit Type 8697
- A control head Type 8691

**Note:**

- You order two components and receive a complete assembled and certified valve.
- Click on the links below and you will come to our website for the respective product where you can download the data sheet.
- For the configuration of further valve systems please use the "Product Enquiry Form" in the data sheet **Type 2033**.
